

Dear Future First Grade Parents,

As you prepare for your child to enter first grade, it can be helpful to have some things to help keep their skills sharp! I have included a reading bingo card where your child can pick different kinds of books to read over the summer. It is also a good idea to keep those math skills sharp! You will have access to IXL over the summer, so your child can continue to practice the math skills they learned in kindergarten! They can continue to work on their number and counting, sorting and classifying, and patterns. You can also practice these math skills while you are out and about this summer! I hope you and your family have a fun and safe summer! See you in first grade!
